Analysis Wrap-Up

Months Supply of Inventory (MSI) Decreases

The total housing inventory at the end of September 2013 decreased **12.36%** to 8,511 existing homes available for sale. Over the last 12 months this area has had an average of 1,075 closed sales per month. This represents an unsold inventory index of **7.91** MSI for this period.

Average Sale Prices Going Up

According to the preliminary trends, this market area has experienced some upward momentum with the increase of Average Price this month. Prices went up **6.81%** in September 2013 to \$161,728 versus the previous year at \$151,418.

Average Days on Market Shortens

The average number of **53.35** days that homes spent on the market before selling decreased by 6.95 days or **11.53%** in September 2013 compared to last year's same month at **60.30** DOM.

Sales Success for September 2013 is Positive

Overall, with Average Prices going up and Days on Market decreasing, the Listed versus Closed Ratio finished strong this month.

There were 2,065 New Listings in September 2013, up **4.61%** from last year at 1,974. Furthermore, there were 1,110 Closed Listings this month versus last year at 915, a **21.31%** increase.

Closed versus Listed trends yielded a **53.8%** ratio, up from last year's September 2013 at **46.4%**, a **15.97%** upswing. This will certainly create pressure on a decreasing Month's Supply of Inventory (MSI) in the following months to come.
